Trade-marks Journal

2017-02-15 — Vol. 64 No. 3251

Canada

Trade-marks Journal

Vol. 64 No. 3251

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Computer software for use in monitoring, managing and delivering completion services and commissioning services and procedures namely services and procedures for assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained

according to operational requirements; computer software for saving and searching information on procedures used in commissioning (namely, assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements) start-up, operating and preservation processes in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for recording, storing and searching data relating to productivity, resource allocation and the progress of construction and commissioning projects (namely, projects to assure that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software, including software downloadable from the internet, for managing the authoring and execution of commissioning procedures in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries namely, assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements; computer software for providing an on-line database to store information and data on procedures used in major capital project commissioning, to upload procedural information and project data and produce notifications and reports; computer software for tracking and monitoring progress of projects and the level of progress of completion of equipment in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for preparing and executing construction, completion projects and commissioning activities and projects (namely, assuring that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, mining, pharmaceutical and nuclear industries; computer software for recording, storing and searching data relating to productivity, resource allocation and the progress of projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for the planning of construction, completion projects and commissioning projects (namely, assuring that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for providing an on-line database to store procedural information and data relating to oil and gas, energy, mining, chemical, pharmaceutical and nuclear projects, to upload procedural and project data and produce notifications and reports; computer software, namely, computer programs and interfaces for engineering, constructing, operating, commissioning and managing industrial construction projects, nuclear power projects, mining projects, and oil and gas exploration and production projects; computer software for estimating cost or resource requirements for the construction, completion and commissioning (namely assuring that all systems , equipment and components are designed, installed, tested, operated and maintained according to operational requirements) of projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for providing development and operations management support to the oil and gas industry; computer software for planning start-up, construction, completion and commissioning activities in the oil and gas industry; computer software for determining productivity in the oil and gas industry; computer software for auditing projects in the oil and gas industry; computer software for field management in the hydrocarbon exploration and production industry; computer software for analyzing, monitoring and planning workflow; computer software for monitoring and analyzing technical and operational data in the oil and gas production and exploration industry; computer software featuring algorithms for use in providing cost quotations for industrial project commissioning services, namely, assuring that all systems, equipment and components used in projects for nuclear power projects, construction and mining projects and oil and gas extraction and production projects are designed, installed, tested, operated and maintained according to operational requirements; computer software for database management; computer software for computer aided design; training manuals and guides in electronic format; Electronic publications, namely, manuals, guides, pamphlets, newsletters and newspaper, magazine and journal articles that are downloadable from a public data network in the fields of engineering, commissioning and completion of industrial oil and gas energy projects, nuclear power projects, mining and construction projects

Class 16

(2) manuals; instruction manuals; books; handbooks; newsletters; pens, pencils; calendars; notepads; printed signs and posters; engineering manuals in the form of printed matter; commissioning manuals in the form of printed matter; engineering manuals in the form of printed matter; printed matter, namely, manuals and guides in the field of computer software for planning, engineering, constructing, operating and managing industrial nuclear projects, oil and gas extraction, mining projects and production projects and construction projects

Colour Claim
Colour is claimed as a feature of the trade-mark. The sphere design feature of the mark consists of eleven orbits. For the uppermost first and second orbits, the left-hand side is dark blue and the right-hand side is pink. For the third and fourth orbits, the left-hand side is dark blue and the right-hand side is purple. For the fifth, sixth and seventh orbits, the left-hand side is dark blue and the right-hand side is medium blue. For the eighth, ninth, tenth and eleventh orbits, the left-hand side is dark blue and the right-hand side is green. The words américa móvil are dark blue.

Foreign Character Translation/Transliteration
The translation provided by the applicant of the Spanish word(s) America Movil is Mobile America.

SERVICES

Class 38
Telecommunication services, namely, personal communication services, namely wireless fax services, wireless telephone services, cellular telephone services, cellular text messaging services, wireless voice mail services, provision of access to a global computer network, mobile telephone services and mobile telephone communication, provision of mobile telecommunications services, namely, voice by wireless handsets and data transmissions accessible by wireless handsets and

laptops and notebook computers with wireless modems that use cellular telecommunications technology, electronic transmission of messages and coded images, electronic transmission of message and data, namely electronic mail services through wired and wireless access, paging services, wireless digital messaging services, web hosting services, recording, storage and subsequent transmission of voice and text messages by telephone, satellite telephone transmission , satellite television transmission, telephone carrier services provided by means of fibre optic cables , telephone lines, radio and microwave transmission, satellite transmission, mobile telephone communication, mobile telephone services, wireless telephone services, wireless voice mail service , operation of a cellular phone network, provision of access to a global computer network, provision of access to the Internet, internet service provider (ISP) services and internet access provider services, wireless digital messaging services, electronic store-and-forward messaging, namely recording, storage and subsequent transmission of voice and text messages by telephone and wireless digital messaging services, correspondence exchange services, namely electronic transmission of computerized documents related to telecommunications namely wireless telephone services and internet access provider services over the Internet or over a global computer network; provision of access to a global computer network, facsimile transmission services, electronic mail services, and telephone communication services

SERVICES

Class 35

(1) Inventory management services; monitoring, control and tracking of inventory; Consultancy and advisory services in the field of retail inventory management; analysis of retail inventory and sales data for business purposes; business consultancy and information services in the field of inventory and sales loss due to processing and administration error; distributorship and retail store services featuring fire fighting and fire protection systems, equipment and supplies; computerized on line ordering services in the field of respiratory apparatus and safety devices for use by firefighters, industrial workers, first responders and military personnel; building energy usage management services; computer services, namely, providing consumer information in the field of respiratory apparatus and safety devices for use by firefighters, industrial workers, first responders and military personnel via the Internet.

Class 37

(2) Installation, maintenance and repair services, all in the field of fire protection systems, smoke alarm, sprinkler systems, piping, special hazard warning systems, and fixed, portable and passive fire protection systems; installation, maintenance and repair services in the field of access control apparatus and systems, namely, access control panels, monitors, circuit boards, security system controllers and internet communication controllers, and parts and accessories therefor, security and facilities management systems, and personal and asset safety and security systems and apparatus

; CCTV and security equipment installation, maintenance and repair services; smoke detector installation, maintenance and repair services; fire extinguisher installation, maintenance and repair services; intrusion system installation, maintenance and repair services; automatic sprinklers installation, maintenance and repair services; emergency lights installation, maintenance and repair services; installation, maintenance and repair services in the field of access control systems, namely, access control panels, monitors, circuit boards, security system controllers and internet communication controllers, and parts and accessories therefor; installation of theft prevention devices and monitoring systems comprising electronic video surveillance cameras with computer hardware and software; installing and maintaining fire protection systems namely fire sprinklers and accessories for such systems; installation, repair and maintenance services in the field of computer hardware and peripherals, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices; services for installing and servicing article surveillance devices; Construction, repair, installation, and maintenance services in the field of fire protection systems, electrical communications systems, alarm, security and access control systems, heating systems, ventilating and air conditioning systems, electronic monitoring equipment and apparatus, traffic and transport management systems; Consultancy services in the field of building construction; technical consultation in the field of mechanical building construction; Technical support services, namely, troubleshooting in the nature of repairing computer hardware problems and problems with anti-theft alarms, inventory control systems, theft-prevention devices, personnel and asset tracking devices.

Class 38

(3) Telecommunication services, namely, electronic transmission of voice, messages and data in the fields of personnel, asset and property safety and security, to home automation and control, to personnel, vehicle and pet location, to traffic and weather updates; transmission by way of telephone lines, cellular and wireless networks, cable networks and satellite networks of sound, video, data and information in the field of personal emergencies, security, alarms, security systems, home surveillance systems, lighting controls, home automation devices, sprinkler systems for fire protection, traffic, road navigation and weather; providing information in the field of personnel, asset and property safety and security, home automation and control, personnel, vehicle and pet location, and traffic and weather updates via computer communications networks; transmission of sound, video, data and information in the field of personal emergencies, security, alarms, security systems, home surveillance systems, lighting controls, home automation systems, sprinkler systems for fire protection, traffic, road navigation and weather via computer networks, text messages and voice messages; transmission, namely, transmission by way of telephone lines, cellular and wireless networks, cable networks and satellite networks, reception and processing of coded and emergency signals.

Class 41

(4) Training and education services, namely, training and conducting classes and seminars in the field of fire fighting and of fire safety apparatus, procedures and processes and fire safety apparatus usage; training and education services, namely, training and conducting classes and seminars in the field of inventory loss prevention procedures and reporting programs, inventory and sales loss data evaluation, retail inventory administration and security technology implementation and retail store and warehouse security technology implementation; training in industrial and marine firefighting.

Class 42

(5) Consultancy services in the field of engineering, architecture, and building design and planning; planning, design and installation of building infrastructure systems and fire protection systems for

commercial, industrial, institutional, mining, and government sites; technical consultation in the field of designing fire protection systems; testing and inspection services in the field of fire prevention and suppression systems, kitchen hood suppression systems, security equipment and apparatus, namely, smoke alarm, sprinkler systems, piping, special hazard warning systems, access control systems, namely, access control panels, monitors, circuit boards, security system controllers and internet communication controllers, and parts and accessories therefor, security and facilities management systems, asset safety and security systems and apparatus, CCTV equipment, theft prevention devices and monitoring systems comprising electronic video surveillance cameras with computer hardware and software, computer hardware and peripherals, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices, article surveillance devices, smoke detector, fire extinguishers, intrusion system, automatic sprinklers and emergency lighting; store traffic analysis services, namely, software as a service for recording and reporting shopper traffic based upon people counting sensors and monitoring cameras; design of fire detection, protection, prevention and suppression systems; design, repair and installation of computer software; design services in the field of traffic management and transportation systems and of telecommunications systems relating thereto; design and development of computer hardware and software, anti-theft alarms, inventory control systems, theft-prevention devices, personnel and asset tracking devices; technical consultation services in the field of computer hardware, peripherals and software; technical support services, namely, troubleshooting of computer software problems and troubleshooting in the nature of diagnosing hardware and problems with anti-theft alarms, inventory control systems, theft-prevention devices, personnel and asset tracking devices; providing temporary use of non-downloadable computer software used for alarm management, inventory control and analysis, theft-prevention and detection, asset tracking, retail activity analysis, and people counting and tracking; Technology consultancy and advisory services for retail establishments, namely, consultancy and advisory services in the field of retail inventory administration and security technology implementation, and retail store and warehouse security technology implementation, inspection of fire protection systems, electrical communications systems, alarm, security and access control systems, heating systems, ventilating and air conditioning systems, electronic monitoring equipment and apparatus, traffic and transport management systems; technology consultation in the field of integration of fire protection systems, electrical communications systems, alarm, security and access control systems, heating systems, ventilating and air conditioning systems, electronic monitoring equipment and apparatus, traffic and transport management systems.

Class 45

(6) Security services for the protection of property and individuals, alarm response and verification services, monitoring fire and security alarm systems, monitoring centralized burglar and fire alarm services, Control of building environmental access and security systems, Electronic monitoring services for security purposes in the field of heating, ventilation, air conditioning and lighting of buildings, remote monitoring of alarms, security systems and building automation systems for security purposes, security services, namely, video monitoring of facilities, viewable through a global computer network, for security purposes and monitoring telephone calls from subscribers and notifying emergency facilities, remote monitoring of machines and security systems, namely, remotely monitoring fire alarms and security systems for sites, namely, homes, businesses and commercial properties for security purposes, and consulting services, and consulting services offered through call centers, for all of the aforesaid services; monitoring the carbon monoxide levels and temperature levels of buildings for security purposes, control of building security systems and building access control systems for others, fire fighting services, rental of fire fighting and

suppression equipment and apparatus, consultancy services for all of the aforementioned services; leasing of fire fighting equipment; monitoring services in the field of fire protection and extinguishing systems and of security and monitoring systems and of apparatus for such systems and to computer software for such systems and apparatus, all for security purposes; retail security services, namely, electronic monitoring services of security systems for security purposes in the field of retail stores; Consultancy and advisory services in the field of theft prevention in the nature of sales loss prevention; consultancy services in the field of shoplifting theft, employee theft, inventory and sales loss due to vendor fraud; providing information in the field of shoplifting theft, employee theft, inventory and sales loss due to vendor fraud; consultancy services in the field of surveillance for fraud and theft prevention purposes; Theft prevention consultancy and advisory services for retail establishments, namely, consultancy and advisory services in the field of inventory loss prevention procedures and reporting programs, inventory and sales loss data evaluation.

MODERN WATER

Goods

(1) Chemicals, bacterial cultures, and biochemical, immunoassay and diagnostic reagents used in the testing and treatment of water, waste water and solid waste; Chemical preparations and products for the testing of water and waste water for toxicity, trace metals and environmental contaminants; bacterial cultures and chemicals for use in assaying and environmental water testing for toxicity, trace metals and environmental contaminants; diagnostic kits consisting primarily of bacterial cultures, immunoreagents, and chemicals for use in the monitoring of toxicity of water, used in the testing and treatment of water, waste water and solid waste; scientific instruments and analyzers for directly detecting toxicity, trace metals, contaminants and environmental pollutants; bio-sensors for detecting toxic substances, trace metals and environmental contaminants in relation to scientific and research use; electronic instruments for measuring and monitoring toxicity in the nature of trace metals, contaminants and environmental pollutants in water and soil; scientific instruments for measuring, testing and detecting contaminants and environmental pollutants in drinking water, waste water, soil, and solid matter; electronic monitoring instruments, other than for medical use, namely, luminometers, colorimeters, photometers, and fluorometers; apparatus for use in assaying, namely, cuvettes, pipettes, pipette tips, beakers, racks, volumetric flasks, filters, and non-medical aspirators; analytical testing systems, namely, luminometers, photometers and colorimeters and laboratory accessories therefor, namely, cuvettes, pipettes, and non-medical aspirators, all for the detection and measurement of toxicity in liquids and solids; computer software for the operation of scientific and electronic instruments and analyzers for measuring, monitoring, testing and detecting toxicity in the nature of trace metals, contaminants and environmental pollutants, all for use in the testing and treatment of water, waste water and solid waste industry; computer software for the operation of bio-sensors, luminometers, colorimeters, photometers, and fluorometers, all for use in the testing and treatment of water, waste water and solid waste industry; computer software for use with scientific and electronic instruments and analyzers for measuring, monitoring, testing and detecting toxicity in the nature of trace metals, contaminants and environmental pollutants to assist in the data reduction and display of information regarding contaminants and environmental pollutants, and all for use in the testing and treatment of water, waste water and solid waste industry; computer software for use with bio-sensors, luminometers, colorimeters, photometers, and fluorometers to assist in the data reduction and display of information regarding contaminants and environmental pollutants, and all for use in the testing and treatment of water, waste water and solid waste industry

(2) Chemical preparations for the desalination and purification of drinking water; water treatment chemical and biochemical reagents, oxidizing, coagulation and flocculation agents and chemical and biochemical preparations for water, waste water and solid waste treatments; electrocoagulation apparatus for the purpose of removing trace metals, general toxicity and contaminants in water for use in the testing and treatment of water, waste water and solid waste; water and waste water treatment apparatus, installations and plants, namely, reverse osmosis units, forward osmosis units , water filtration units, membrane filtration units, water sterilization units, water purifying units, water and wastewater concentration units, water recovery units, water desalination plants, sewage treatment plants; desalination apparatus, installations and plant, namely, water desalination units and plants, intake systems, pre-treatment systems, membrane desalination units, thermal desalination units and post-treatment systems; sewage treatment apparatus, installations and plant , namely, thickening and dewatering machines for use in treatment of liquids including water, industrial effluent and sewage, apparatus and installations for decomposing toxic substances in water, sewage treatment plants, biological treatment units, chemical treatment units, filtration units, aeration units and membrane treatment units; water supply apparatus, namely, water purification, sedimentation and filtration apparatus for clarification, thickening and filtration of water, waste water and industrial water, regulating accessories for water supply, namely, metered valves and pipes.

(3) Water treatment chemical and biochemical reagents, oxidizing, coagulation and flocculation agents and chemical and biochemical preparations for waste water treatments.

(4) Chemical preparations for the desalination and purification of drinking water; water treatment chemical and biochemical reagents, oxidizing, coagulation and flocculation agents and chemical and biochemical preparations for water, and solid waste treatments; water and waste water treatment apparatus, installations and plants, namely, reverse osmosis units, forward osmosis units , water filtration units, membrane filtration units, water sterilization units, water purifying units, water and wastewater concentration units, water recovery units, water desalination plants; desalination apparatus, installations and plant, namely, water desalination units and plants, intake systems, pre-treatment systems, membrane desalination units, thermal desalination units and post-treatment systems; water supply apparatus, namely, water purification, sedimentation and filtration apparatus for clarification, thickening and filtration of water, waste water and industrial water, regulating accessories for water supply, namely, metered valves and pipes.

(5) Electrocoagulation apparatus for the purpose of removing trace metals, general toxicity and contaminants in water for use in the testing and treatment of water, waste water and solid waste.

SERVICES

(1) Installation, maintenance and repair of water, waste water and solid waste testing and monitoring apparatus and equipment and of facilities and plant for the testing and monitoring water, waste water and solid waste; consultancy services in the field of water, waste water and solid waste treatment, testing and monitoring; scientific and technological services and research and design relating thereto in field of the testing of water and waste water for toxicity, trace metals and environmental contaminants; industrial analysis and research services relating to the desalination and purification of drinking water, and the testing of water and waste water for toxicity, trace metals and environmental contaminants; environmental monitoring of water quality, presence of trace metals, toxicity and environmental contaminants; environmental analysis and monitoring of water quality in relation to presence of trace metals, general toxicity and contaminants in water; Scientific and technological services, namely, toxicity analysis in the field of environmental monitoring of water quality, presence of trace metals, toxicity and environmental contaminants.

(2) Construction, installation, maintenance and repair of water, waste water and solid waste treatment apparatus and equipment and of facilities and plants for the treatment of water, waste water and solid waste; construction of water, waste water and solid waste testing and monitoring apparatus and equipment and of facilities and plants for the testing and monitoring of water, waste water and solid waste; construction, installation, maintenance and repair of desalination apparatus, installations and plants; water treatment and purification services; waste water treatment and water recycling services; water desalination services; water reclamation services; recycling of waste, namely, recovery of materials from liquids and solids; scientific and technological services and research and design relating thereto in field of desalination and purification of drinking water.

(3) Construction, installation, maintenance and repair of desalination apparatus, installations and plants; water treatment and purification services; water reclamation services.

(4) Construction, installation, maintenance and repair of water, waste water and solid waste treatment apparatus and equipment and of facilities and plants for the treatment of water, waste water and solid waste; waste water treatment and water recycling services; water desalination services; recycling of waste, namely, recovery of materials from liquids and solids

(5) Scientific and technological services and research and design relating thereto in field of desalination and purification of drinking water.

(6) Construction of water, waste water and solid waste testing and monitoring apparatus and equipment and of facilities and plants for the testing and monitoring of water, waste water and solid waste.

- Yellow, gold

Trademark Description

The shape of the bottle is not claimed. The mark is two-dimensional. The mark consists of two labels on a three dimensional bottle as they appear in the drawing namely a label applied to the top of the bottle and to the middle of the bottle. The three-dimensional bottle appearing in dotted outlines in the drawing is not part of the mark.

Colour Claim

Colour is claimed as a feature of the trade-mark. The colar is copper with a white vertical band in the middle with two vertical green lines with a green circle at the end thereof. The terms 'JOHN JAMESON & SON LIMITED' and 'JJ & S' are white. The label in the middle of the bottle is white with two green lines at the upper part and the lower part. The term JAMESON is black with a golden outlining. The design underneath and the terms 'THE COOPER'S CROZE' are green. The outlining of the terms 'THE COOPER'S CROZE' is golden. The finger print is copper.

Goods

Class 33

Alcoholic beverages, namely whiskey, Irish whiskey, pre-mixed whiskey-based beverages, alcoholic beverages from or containing whiskey.

HAVANA CLUB ANEJO 7 AÑOS

Image Description (Vienna)
- Tie-on labels
- Bottles or flasks in circular or elliptical horizontal cross section
- Labels, collarettes (bottle-neck labels) -- Note: Not including tie-on labels (20.5.15).
- Framework and frames
- Complete framework and frames
- Men wearing folk or historical costume
- Roman ensigns, lictors' fasces, sceptres
- Latin cross, tau cross
- Circles
- One circle or ellipse
- Circles or ellipses containing representations of human beings or parts of the human body
- Circles or ellipses with inscriptions projecting beyond the circumference
- Ornamental bands and borders (except 25.1.9)
- Other ornamental motifs
- Rectangles
- Black
- Red, pink, orange
- White, grey, silver

- Yellow, gold
- Green
- Brown

Trademark Description

The trademark is two-dimensional. The mark consists of the labels affixed to the bottle and the label tied to the neck of the bottle, as appears in the drawing. The bottle is not part of the trademark .

Colour Claim

Colour is claimed as a feature of the trademark. The cap and neck of the bottle are chestnut brown. The label tied to the neck of the bottle with a chestnut brown ribbon is green on the left and right sides, with a yellow strip and red rectangle in the middle. From the outside towards the inside, the first border is green, the second is yellow with red diamonds. Under that appears a thin gold line, followed by a black strip and another gold line. A gold dot appears at the four corners of this last line. The inside surface of the label is black. On this surface, the wavy lines in the top portion, as well as the semi-curved line and the curved and patterned strip under the circle in the middle of the mark are grey, as are the patterns on each side of the half-circle and the horizontal lines above EL RON FUNDACIONAL. The terms HAVANA CLUB are white, with a black exterior outline containing a gold interior outline. The circle is red. The outline of the circle, the figure above the terms HAVANA CLUB, the two stars, the signature in the pattern on the right, the two circles in the horizontal lines, the terms EL RON FUNDACIONAL, and the patterns under them are gold. The small label at the bottom of the bottle is green and white.

Disclaimer

The right to the exclusive use of the word EL RON DE CUBA appearing above the main label is disclaimed apart from the trade-mark.

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant

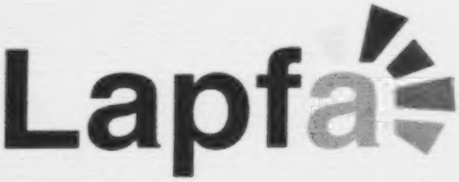
Lapfa, Inc., 548 Concord Ave, Toronto,
ONTARIO M6H 2R1

TRADEMARK



Index Headings

LAPFA

Image Description (Vienna)

- Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
- Several quadrilaterals juxtaposed, joined or intersecting
- Quadrilaterals with dark surfaces or parts of surfaces
- Luminous sources, rays, shafts of light

Trademark Description

Lapfa stands for 'Light and Power for All'. I wish to trademark both the design and the slogan 'Light and Power for All'. The trademark for Lapfa is the word itself, followed by chevrons around the last ' a' of Lapfa, in a different colour. Any colour can be used in each chevron surrounding the 'a' to look like sun rays, as long as each chevron colour is different from the others. The trademark can appear complete, as shown above, or as an abbreviation, constituted by the last 'a' with the chevron sun rays around it.
